Sofia Marin

Data Engineer

sofia.marin@example.com · +1 555 0155 · Bucharest, Romania

SUMMARY

Data engineer with 5 years of experience on Airflow and GCP, mostly in games. I build the telemetry pipelines and retention models that product teams use every day.

EXPERIENCE

Data Engineer, Carpathia Games 2019 - 2024

- Built Airflow pipelines loading game telemetry into BigQuery.
- Wrote the SQL behind the player retention dashboards.
- Set up alerting for late or missing telemetry batches.

Freelance data engineer 2024 - present

- Python data pipelines for two e-commerce clients.
- Migrated a client's reporting from spreadsheets to BigQuery.

SKILLS

Python, SQL, Airflow, BigQuery, GCP, Looker
