[redacted]

Data Engineer

[redacted]

SUMMARY

Data engineer with 6 years of experience on Spark and Kafka platforms for a telecom operator. I build streaming jobs that stay up at night and SQL models that business teams trust.

EXPERIENCE

Data Engineer, Vistula Telecom 2019 - present

- Run Spark Structured Streaming jobs on Kafka topics for network telemetry.
- Own the SQL warehouse models for churn reporting on AWS Redshift.
- Reduced streaming job restarts by 80% with better checkpointing.

Junior Developer, Krak Soft 2018 - 2019

- Python scripts for data migration between client systems.
- Maintained the SQL reports for two retail customers.

SKILLS

Python, SQL, Spark, Kafka, AWS, Redshift, Scala, Docker

EDUCATION

MSc Computer Science, AGH University of Kraków, 2018

CERTIFICATIONS

AWS Certified Cloud Practitioner, 2021

LANGUAGES

Polish (native), English (fluent)
