Daniel Cho

Senior Data Engineer

daniel.cho@example.com · +1 555 0136 · Seoul, South Korea

SUMMARY

Data engineer with 8 years of experience across Spark, Kafka and AWS in e-commerce and shipping. I lead platform work and enjoy growing other engineers.

EXPERIENCE

Staff Data Engineer, Hangang Commerce 2020 - present

- Own the Kafka and Spark streaming platform for checkout events on AWS.
- Mentor four engineers and lead the data platform guild.
- Cut the cost of the event pipeline by 35% with better partitioning.

Data Engineer, Busan Shipping 2016 - 2020

- Python and SQL batch pipelines with Airflow.
- Built the container tracking tables used by operations.

SKILLS

Python, SQL, Spark, Kafka, Airflow, AWS, Scala, Terraform
