Ines Haddad

Data Engineer

ines.haddad@example.com · +1 555 0108 · Marseille, France · Born 9 May 1987

SUMMARY

Former physics lab technician who moved into data engineering in 2022. I build Spark and Airflow pipelines for sensor data and care a lot about data quality.

EXPERIENCE

Data Engineer, Calanques Energy 2022 - present

- Built Spark jobs in Python that clean and aggregate wind-turbine sensor data.
- Run 15 Airflow DAGs and wrote the SQL checks that catch bad sensor readings.
- Onboarded and mentored an apprentice data engineer.

Laboratory Technician, Institut Fresnel 2012 - 2022

- Automated instrument data capture with Python scripts.
- Maintained the lab's measurement database.

SKILLS

Python, SQL, Spark, Airflow, Postgres, Azure

EDUCATION

BSc Physics, Aix-Marseille University, 2011

CERTIFICATIONS

Microsoft Certified: Azure Data Fundamentals, 2022

LANGUAGES

French (native), Arabic (fluent), English (professional)
